The second model, the 2230Fm, is part of the Rivio line-up. AOC reports that this screen is intended for multimedia applications and games. The monitor has a glossy finish and supports the playback of video, pictures and music without the usage of a PC. To realize this, the monitor features two USB-ports.

AOC 2230Fm

Both screens have an HDMI-connector and a reported response time of 2ms. The dynamic contrast ratio for the 2218Ph and 2230Fm is respectively 12000:1 and 20000:1.
