New AOC LCD TV 981-line

The screenshot shows a web browser displaying an article on the Hardware.Info website. The page layout includes a top navigation bar with links for News, Articles, PC Advice, Price comparison, Community, and Extra. On the left side, there is a 'Find info on...' sidebar with a list of categories such as Cases/Modding, Cooling, Input devices, Main components, Multimedia, Networking, Notebooks, Peripherals, Photo/Video/TV, Power, Software, Sound, Storage, Supplies, and Systems. Below this sidebar are sections for 'Powered by' (NXP Internet and Kingston), a 'Newsletter' subscription form, and a poll titled 'I'll buy a Core i7...' with radio button options for purchase timing. The main content area features the article title 'New AOC LCD TV 981-line', a breadcrumb trail, and a 'News items' section. The article text states: 'AOC International (Europe) GmbH expands its Home Entertainment line of products with the new 981 LCD TV-serie. The HD-Ready televisions will become available in sizes of 19- to 42-inch.' Below the text is a large image of the AOC LCD TV with a caption '19w981\_left\_with\_aoc\_550'. A small thumbnail image of the TV is also present above the main text. To the right of the article is an 'Advertisement' section with a 'News' sub-section listing various tech news items like 'Eizo 24" Full-HD monit...', 'Foxconn X58 "Blood Rag...', 'Core i7 with decreased...', 'Leadtek Winfast GTX 26...', 'Corsair launches tripl...', 'EVGA introduces Intel ...', 'Super Talent Luxio USB ...', 'Nehalem for notebooks ...', 'AMD and Celsia working...', and 'Cooler Master introduc...'. At the bottom of the article, there is a paragraph describing the TV's features: 'A glossy black frame surrounds the blue crystal screens, which have aspect ratios of 16:19 (19" and 22") and 16:9 (26" - 42"). The TV's feature two HDMI connectors (three on the models 32", 37" and 42"), as well as analog and digital hybrid tuners. The two integrated speakers are to provide a three-dimensional sound experience, while NICAM takes care of a digital stereo sound.'
